The democratic candidates for the legislature are making a thorough canvass of the county, and gaining ground every day. They are an excellent set of gentlemen, and should be elected to a man. We hope that not a name will be scratched. Shelby county should send up a united delevance of the stories of his successes in debate as told by our democratic newspapers.

State. predicted that Wilson would heat wright in Hamilton county. We confess we are sorry. Republican hope depends upon Wright's superior ity over Wilson, but we greatly fear the democracy nominated the wrong man. Wright is certainly not a popular advocate, and we do not believe the stories of his successes in debate as told by our democratic newspapers.
